

#### Report on the Company Board of Director's Responsibility on the Financial Report

As a listed company, the Board of Directors realizes the duties and responsibilities for preparation of financial statements of I.C.C. International Public Company Limited and its subsidiaries, in accordance with Thailand Financial Reporting Standard, by selecting an appropriate accounting policy, to which the company has strictly adhered on a regular basis. The Board of Directors has exercised due care and reasonable projection in preparing the reports. There is adequate disclosure of material information in the Notes to Financial Statements as well as explanations and analysis as regards to the financial status and operating results of the Company and its subsidiaries, for the benefits of shareowners and general investors alike. The financial statements have been audited, with unqualified opinion by independent certified public accountants.

In addition, the Board of Directors has promoted actions in accordance with Corporate Governance Principles, and assured that the company has adopted efficient and effective risk management and internal control systems. These will ensure that the accounting data recording procedures are accurate, complete and sufficient for maintaining assets of the Company and its subsidiaries, including prevention of material frauds and irregularities.

In so doing, the Audit Committee of the Company, consisting of independent directors as members, has reviewed the quality of financial reports and the internal control system, and hereby expressed their opinion in the Report of Audit Committee, as shown in the Annual Registration Statement / Annual Report 2024 (Form 56-1 One Report).

The Board of Directors is of the opinion that Corporate Governance, risk management and internal control systems of the company are adequate and appropriate, thereby providing reasonable assurances that the Financial Statements of the Company and its subsidiaries, for the Year Ending December 31, 2024, had been prepared and disclosed accurately, as deemed fully compliant to the financial reporting standard.

## **Independent Auditor's Report**

## To the Shareholders of I.C.C. International Public Company Limited

#### Opinion

I have audited the consolidated and separate financial statements of I.C.C. International Public Company Limited and its subsidiaries (the "Group") and of I.C.C. International Public Company Limited (the "Company"), respectively, which comprise the consolidated and separate statements of financial position as at 31 December 2024, the consolidated and separate statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes, comprising a summary of material accounting policies and other explanatory information.

In my opinion, the accompanying consolidated and separate financial statements present fairly, in all material respects, the financial position of the Group and the Company, respectively, as at 31 December 2024 and their financial performance and cash flows for the year then ended in accordance with Thai Financial Reporting Standards (TFRSs).

#### Basis for Opinion

I conducted my audit in accordance with Thai Standards on Auditing (TSAs). My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements* section of my report. I am independent of the Group and the Company in accordance with the *Code of Ethics for Professional Accountants including Independence Standards* issued by the Federation of Accounting Professions (Code of Ethics for Professional Accountants) that is relevant to my audit of the consolidated and separate financial statements, and I have fulfilled my other ethical responsibilities in accordance with the Code of Ethics for Professional Accountants. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

#### Key Audit Matters

Key audit matters are those matters that, in my professional judgment, were of most significance in my audit of the consolidated and separate financial statements of the current period. These matters were addressed in the context of my audit of the consolidated and separate financial statements as a whole, and in forming my opinion thereon, and I do not provide a separate opinion on these matters.

- I.C.C. INTERNATIONAL PLC.

#### Valuation of inventories

Refer to Note 4(f) and 9

#### The key audit matter

The Company sells fashion goods and others which are subject to rapid change in consumer's demand. As a result, there is the risk that holding a high amount of inventory may result in the Company being unable to sell products before market trend and customer demand changes which may result in the cost of inventories being higher than net realizable value including any inventory obsolescence. Therefore, the valuation of inventories involve management's judgment in determining the adequate provision for obsolete stocks to present the appropriate valuation of inventory. I considered this to be a key audit matter.

#### How the matter was addressed in the audit

My audit procedures included the following:

- understanding the process of inventories valuation by inquiry of the responsible person in this area, and identifying controls and performing tests of controls over the inventory process;
- testing on samples of the inventory aging report to check aging with the related documents to consider that these were classified in the appropriate aging bracket;
- assessing the appropriateness of the methodology used for calculating the provision for obsolete by challenging the assumptions, category of inventory and comparing with historical experience and testing on a sample of the detail of outstanding balances and sales plan;
- considering the value of inventories by comparing cost and the selling price less related selling expenses and testing on a sample basis with the related supporting documents; and
- assessing the adequacy of disclosures in accordance with the relevant Thai Financial Report Standards.

### Valuation of investment in non-listed equity instruments

Refer to Note 4(d) and 24

#### The key audit matter

The Group has classified investment in non-listed equity instruments as investments in financial assets at fair value through other comprehensive income ("FVOCI").

Determining the fair value of these financial instruments require the use of valuation models. The valuation models use various unobservable inputs which are subject to high estimation uncertainty. The use of different valuation models and assumptions could produce significantly different estimates of fair value.

Due to high degree of judgement and the material impact to the Group's financial statements, I considered this to be a key audit matter.

#### How the matter was addressed in the audit

My audit procedures included the following:

- understanding the investment valuation process including assessing the appropriateness of valuation methodology and the inputs used for valuation;
- testing on samples of the calculation of the fair value of the investment, including assessing the appropriateness of the key assumptions used in valuation by comparing these to externally published industry data and considering whether these assumptions are consistent with the current market environment; and
- assessing the adequacy of disclosures in accordance with the relevant Thai Financial Report Standards.

#### Revenue recognition - consignment

Refer to Note 4(q) and 19

#### The key audit matter

The Company is the leader in distribution of fashion consumer products in department stores as major channel and various stores as the minor channel.

In consignment sales, the control of the product does not pass to the distributor at that point in time. Revenue from sales should not be recognized until the control of the product has passed to the consumer. The terms of the arrangement may stipulate that the Company can control or deliver the product to the consumer, and the consignee will pay for the product when they are sold to the consumer. I considered this to be a key audit matter.

#### How the matter was addressed in the audit

My audit procedures included the following:

- understanding and assessing the design and testing the operating effectiveness of internal controls related to recognition of the consignment sales;
- testing on samples of net sales transactions after deduction of transactions that are not delivered to consumer;
- testing on samples of journal entries posted to revenue accounts to consider any possible irregular sales transactions:
- performing reconciliation between the input data with data in ERP system with the assistance of KPMG IT Audit;
- comparing revenue reported by group of products in the current reporting period with prior period to identify unusual transactions; and
- assessing the adequacy of disclosures in accordance with the relevant Thai Financial Report Standards.

#### Other Information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated and separate financial statements and my auditor's report thereon. The annual report is expected to be made available to me after the date of this auditor's report.

My opinion on the consolidated and separate financial statements does not cover the other information and I will not express any form of assurance conclusion thereon.

In connection with my audit of the consolidated and separate financial statements, my responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated and separate financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated.

When I read the annual report, if I conclude that there is a material misstatement therein, I am required to communicate the matter to those charged with governance and request that the correction be made.

Responsibilities of Management and Those Charged with Governance for the Consolidated and Separate Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated and separate financial statements in accordance with TFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated and separate financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and separate financial statements, management is responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's and the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated and Separate Financial Statements

My objectives are to obtain reasonable assurance about whether the consolidated and separate financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with TSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and separate financial statements.

000

As part of an audit in accordance with TSAs, I exercise professional judgment and maintain professional skepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the consolidated and separate financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the consolidated and separate financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and separate financial statements, including the disclosures, and whether the consolidated and separate financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. I am responsible for the direction, supervision and performance of the group audit. I remain solely responsible for my audit opinion.

I communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.

I also provide those charged with governance with a statement that I have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on my independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, I determine those matters that were of most significance in the audit of the consolidated and separate financial statements of the current period and are therefore the key audit matters. I describe these matters in my auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, I determine that a matter should not be communicated in my report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Kul- D.

Notes to the financial statements For the year ended 31 December 2024

These notes form an integral part of the financial statements.

The financial statements issued for Thai statutory and regulatory reporting purposes are prepared in the Thai language. These English language financial statements have been prepared from the Thai language statutory financial statements, and were approved and authorized for issue by the Board of Directors on 21 February 2025.

#### 1 General information

I.C.C. International Public Company Limited, the "Company", is incorporated in Thailand and was listed on the Stock Exchange of Thailand in December 1978. The Company's registered office at 530 Soi Sathupradit 58, Bang Phong Phang subdistrict, Yannawa district, Bangkok.

The Company's major shareholders during the financial year were Saha Pathana Inter-Holding Public Company Limited (24.81% shareholding) and I.D.F. Company Limited (10.42% shareholding). Both companies were incorporated in Thailand.

The principle activity of the Company is distributing consumer products. Details of the Company's subsidiaries as at 31 December 2024 and 2023 are given in note 11.

#### 2 Basis of preparation of financial statements

The financial statements are prepared in accordance with Thai Financial Reporting Standards ("TFRS"), guidelines promulgated by the Federation of Accounting Professions and applicable rules and regulations of the Thai Securities and Exchange Commission. The financial statements are presented in Thai Baht, which is the Company's functional currency. The described accounting policies have been applied consistently to all periods presented in these financial statements.

The preparation of financial statements in conformity with TFRS requires management to make judgements, estimates and assumptions that affect the application of the Group's accounting policies. Actual results may differ from these estimates. Estimates and underlying assumptions that are described in each note are reviewed on an ongoing basis. Revisions to accounting estimates are recognised prospectively.

#### 3 Changes in material accounting policies

## (a) TAS 12 Income Taxes – Deferred Tax related to Assets and Liabilities arising from a Single Transaction

The Group has adopted Deferred Tax related to Assets and Liabilities arising from a Single Transaction – Amendments to TAS 12 since 1 January 2024. The amendments narrow the scope of the initial recognition exemption by excluding transactions that give rise to equal and offsetting temporary differences – e.g. leases and decommissioning liabilities. The Group shall recognise deferred tax assets and liabilities that are relevant to leases and decommissioning liabilities since the beginning of the earliest comparative period presented by adjusting cumulative effects in retained earnings or other components of equity at that date. For all other transactions, the Group applies the amendments to transactions that occur after the beginning of the earliest period presented. Previously, the Group recognised deferred tax for leases arising from temporary differences on a net basis after the initial recognition.

I.C.C. INTERNATIONAL PLC. 153

Notes to the financial statements For the year ended 31 December 2024

Following the amendments, the Group has recognised separately the deferred tax asset in relation to its lease liabilities and the deferred tax liability in relation to its right-of-use assets. However, there was no impact on the statement of financial position because the balances qualify for offsetting in accordance with TAS 12. There was also no impact on the opening retained earnings as at 1 January 2023 as a result of the change. The key impact for the Group relates to disclosure of the deferred tax assets and liabilities recognised.

#### (b) TAS 1 Presentation of Financial Statements – Disclosure of Accounting Policies

The Group has adopted Disclosure of Accounting Policies – Amendments to TAS 1 since 1 January 2024. The amendments require the disclosure of 'material' rather than 'significant', accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies.

Following the amendments, the Group has revisited the accounting policy information it has been disclosing and made updates to the information disclosed in note 4.

#### 4 Material accounting policies

#### (a) Basis of consolidation

The consolidated financial statements relate to the Company and its subsidiaries (together referred to as the "Group") and the Group's interests in associates. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

When the Group loses control over a subsidiary, it derecognises the assets and liabilities, and any related non-controlling interests and other components of equity of the subsidiary. Any resulting gain or loss is recognised in profit or loss. Any interest retained in the former subsidiary is measured at fair value when control is lost.

Intra-group balances and transactions, and any unrealised income or expenses arising from intra-group transactions, are eliminated on consolidation. Unrealised gains arising from transactions with associates are eliminated against the investment to the extent of the Group's interest in the investee. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

#### Business combinations

The Group applies the acquisition method when the Group assess that the acquired set of activities and assets meets the definition of a business and control is transferred to the Group.

The consideration transferred in the acquisition is generally measured at fair value, as are the identifiable net assets acquired. Any goodwill that arises is tested annually for impairment. Any gain on bargain purchase is recognised in profit or loss immediately.

Any contingent consideration is measured at fair value at the date of acquisition. Contingent consideration is remeasured at fair value at each reporting date and subsequent changes in the fair value are recognised in profit or loss.

A contingent liability of the acquiree is assumed in a business combination only if such a liability represents a present obligation and arises from a past event, and its fair value can be measured reliably.

Notes to the financial statements For the year ended 31 December 2024

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group estimates provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to its acquisition-date fair value and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are recognised as would be required if that interest were disposed of.

#### (b) Investments in subsidiaries and associates

Investments in subsidiaries and associates in the separate financial statements are measured at cost less allowance for impairment losses. Dividend income is recognised in profit or loss on the date on which the Company's right to receive payment is established. If the Company disposes of part of its investment, the deemed cost of the part sold is determined using the weighted average method. Gains and losses on disposal of the investments are recognised in profit or loss.

#### (c) Foreign currencies

Transactions in foreign currencies including non-monetary assets and liabilities denominated in foreign currencies are translated to the respective functional currencies of each entity in the Group at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate at the reporting date.

Foreign currency differences are generally recognised in profit or loss. However, foreign currency differences arising from the translation of the following items are recognised in other comprehensive income:

- an investment in equity securities designated as at FVOCI (except on impairment, in which case foreign currency differences that have been recognised in other comprehensive income are reclassified to profit or loss).

#### Foreign operations

The assets and liabilities of foreign operations are translated to Thai Baht at the exchange rates at the reporting date. The revenues and expenses of foreign operations are translated to Thai Baht at rates approximating the exchange rates at the dates of the transactions.

Foreign exchange differences are recognised in other comprehensive income and accumulated in the translation reserve until disposal of the investment, except to extent that the translation difference is allocated to non-controlling interest.

When a foreign operation is disposed of in its entirety or partially such that control is lost, the cumulative amount in the translation reserve related to that foreign operation is reclassified to profit or loss as part of the gain or loss on disposal.

When the settlement of a monetary item receivable from or payable to a foreign operation is neither planned nor likely in the foreseeable future, exchange gains and losses arising from such a monetary item are considered to form part of a net investment in a foreign operation and are recognised in other comprehensive income, and presented in the translation reserve in equity until disposal of the investment.

000

Notes to the financial statements For the year ended 31 December 2024

#### (d) Financial instruments

#### (d.1) Classification and measurement

Other financial assets and financial liabilities (except trade accounts receivables (see note 4(f))) are initially recognised when the Group becomes a party to the contractual provisions of the instrument, and measured at fair value plus or minus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition.

On initial recognition, a financial asset is classified as measured at: amortised cost; fair value to other comprehensive income (FVOCI); FVTPL. Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified prospectively from the reclassification date.

On initial recognition, financial liabilities are classified as measured at amortised cost using the effective interest method or FVTPL. Interest expense, foreign exchange gains and losses and any gain or loss on derecognition are recognised in profit or loss.

Financial assets measured at amortised costs are subsequently measured at amortised cost using the effective interest method. The amortised cost is reduced by expected credit losses. Interest income, foreign exchange gains and losses, expected credit loss and any gain or loss on derecognition are recognised in profit or loss.

Equity investments measured at FVOCI are subsequently measured at fair value. Dividend income is recognised as income in profit or loss on the date on which the Group's right to receive payment is established, unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognised in OCI and are never reclassified to profit or loss.

#### (d.2) Derecognition and offset

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group derecognises a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognises a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognised at fair value.

The difference between the carrying amount extinguished and the consideration received or paid is recognised in profit or loss.

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and the Group intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

#### Notes to the financial statements

#### For the year ended 31 December 2024

#### (d.3) Derivatives

Derivatives are recognised at fair value and remeasured at fair value at each reporting date. The gain or loss on remeasurement to fair value is recognised immediately in profit or loss.

#### (d.4) Impairment of financial assets other than trade receivables

The Group recognises allowances for expected credit losses (ECLs) on financial assets measured at amortised cost.

The Group recognises ECLs equal to 12-month ECLs unless there has been a significant increase in credit risk of the financial instrument since initial recognition or credit-impaired financial assets, in which case the loss allowance is measured at an amount equal to lifetime ECLs.

ECLs are a probability-weighted estimate of credit losses based on forward-looking and historical experience. Credit losses are measured as the present value of all cash shortfalls discounted by the effective interest rate of the financial asset.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due, significant deterioration in credit rating, significant deterioration in the operating results of the debtor and existing or forecast changes in the technological, market, economic or legal environment that have a significant adverse effect on the debtor's ability to meet its obligation to the Group.

The Group considers a financial asset to be in default when:

- the debtor is unlikely to pay its credit obligations to the Group in full, without recourse by the Group takes action such as realising security (if any is held); or
- the financial asset is more than 12 months past due.

#### (d.5) Write offs

The gross carrying amount of a financial asset is written off when the Group has no reasonable expectations of recovering. Subsequent recoveries of an asset that was previously written off, are recognised as a reversal of impairment in profit or loss in the period in which the recovery occurs.

#### (e) Trade receivables

A trade receivable is recognised when the Group has an unconditional right to receive consideration. A trade receivable is measured at transaction price less allowance for expected credit loss. Bad debts are written off when the Group has no reasonable expectations of recovering.

The Group estimates lifetime expected credit losses (ECLs), using a provision matrix to find the ECLs rates. This method groups the debtors based on shared credit risk characteristics and past due status, taking into account historical credit loss data, adjusted for factors that are specific to the debtors and an assessment of both current economic conditions and forward-looking general economic conditions at the reporting date.

PLC. 157

### Notes to the financial statements For the year ended 31 December 2024

#### (f) Inventories

Inventories are measured at the lower of cost and net realisable value. Cost of inventories in categories of trading, consignment goods sales to distributor with condition, manufactured inventories and work-in-progress are calculated using the weighted average cost principle and for cost of inventories on real estate-condominium is calculated using the specific method. Cost of inventory comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

#### (g) Real estate development projects

Real estate development projects are projects for the development of properties with the intention of sale in the ordinary course of business. They are stated at the lower of cost and estimated net realisable value. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs to complete and to make the sale.

The cost of real estate development projects comprises specifically identified costs, including acquisition costs, development expenditure, borrowing costs and other related expenditure. Borrowing costs payable on loans funding real estate development projects are capitalised, on a specific identification basis, as part of the cost of the property until the completion of development.

#### (h) Sales VAT on consignment sales of inventories

Sales VAT on consignment sales shall be recorded and payable when the goods have been delivered to distributor and sales VAT has been submitted to the Revenue Department. This sales VAT shall be recorded as current asset in the statement of financial position. The Company shall also call for VAT from distributor after the goods have been sold to customers.

#### (i) Investment properties

Investment properties are properties which are held to earn rental income, for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

Investment properties are measured at cost less accumulated depreciation and impairment losses.

Depreciation is calculated on a straight-line basis over the estimated useful lives of each property and recognised in profit or loss. No depreciation is charged on freehold land.

The estimated useful lives are as follows:

Land improvements 5 years Buildings 10 - 40 years

Differences between the proceeds from disposal and the carrying amount of investment property are recognised in profit or loss.

#### (j) Property, plant and equipment

Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses.

159

## I.C.C. International Public Company Limited and its subsidiaries

#### Notes to the financial statements For the year ended 31 December 2024

#### Subsequent costs

The cost of replacing a part of an item of property, plant and equipment is recognised in the carrying amount of the item when the future economic benefits embodied within the part will flow to the Group, and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in profit or loss as incurred.

#### Depreciation

Depreciation is calculated on a straight-line basis over the estimated useful lives of each component of an asset except for the computer has been determined by using the Sum of Year's Digit Method and recognised in profit or loss. No depreciation charge on freehold land and assets under construction.

The estimated useful lives are as follows:

Buildings and improvements	20 - 50	years
Office equipment	3 - 5	years
Furniture and fixtures	5	years
Vehicles	5	years

#### (k) Intangible assets

Other intangible assets are measured at cost less accumulated amortisation and impairment losses. Subsequent expenditure is capitalised only when it will generate future economic benefits. Amortisation is calculated on a straight-line basis over the estimated useful lives of intangible assets and recognised in profit or loss. No amortisation is provided on software under development.

The estimated useful lives are as follows:

Trademarks	10	years
License database of customers	10	years
Software licenses	10	years

#### (l) Lease

At inception of a contract, the Group assesses that a contract is, or contains, a lease when it conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

As a lessee

At commencement or on modification of a contract, allocates the consideration in the contract to each lease component on the basis of its relative stand-alone prices of each component. For the leases of property, the Group has elected not to separate non-lease components and account for the lease and non-lease components wholly as a single lease component.

The Group recognises a right-of-use asset and a lease liability at the lease commencement date except for leases of low-value assets and short-term leases which are recognised as an expense on a straight-line basis over the respective lease terms.

I.C.C. INTERNATIONAL PLC.

Notes to the financial statements For the year ended 31 December 2024

Right-of-use asset is measured at cost, less any accumulated depreciation and impairment loss, and adjusted for any remeasurements of lease liability. The cost of right-of-use asset includes the initial amount of the lease liability adjusted for any lease payments, plus any initial direct costs incurred. Depreciation is charged to profit or loss on a straight-line method from the commencement date to the end of the lease term, unless the lease transfers ownership of the underlying asset to the Group by the end of the lease term or the Group will exercise a purchase option. In that case the right-of-use asset will be depreciated over the useful life of the underlying asset, which is determined on the same basis as those of property and equipment.

The lease liability is initially measured at the present value of all lease payments that shall be paid under the lease. The Group uses the Group's incremental borrowing rate to discount the lease payments to the present value. The Group determines its incremental borrowing rate by obtaining interest rates from various external financing sources and makes certain adjustments to reflect the terms of the lease and type of the asset leased.

The lease liability is measured at amortised cost using the effective interest method. It is remeasured when there is a lease modification or a change in the assessment of options specified in the lease. When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the right-of-use asset or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero. However, for leases that received COVID-19 related rent concessions and the Group elected not to assess that the rent concessions are lease modification, the Group remeasured lease liabilities using the original discount rate and recognised the impact of the change in lease liability in profit or loss.

As a lessor

At inception or on modification of a contract, the Group allocates the consideration in the contract to each component on the basis of their relative standalone selling prices.

At lease inception, the Group considers to classify a lease that transfers substantially all of the risks and rewards incidental to ownership of the underlying asset to lessees as a finance lease. A lease that does not meet this criteria is classified as an operating lease.

The Group recognises lease payments received under operating leases in profit or loss on a straight-line basis over the lease term as part of other income. Initial direct costs incurred in arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as other income in the accounting period in which they are earned.

The Group derecognises and determines impairment on the lease receivables as disclosed in note 4(d).

#### (m) Impairment of non-financial assets

The carrying amounts of the Group's assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated.

An impairment loss is recognised in profit or loss if the carrying amount of an asset exceeds its recoverable amount.

The recoverable amount is the greater of the asset's value in use and fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Notes to the financial statements For the year ended 31 December 2024

An impairment loss of asset recognised in prior periods is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

#### (n) Employee benefits

Defined benefit plans

The Group's net obligation in respect of defined benefit plans is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods. The defined benefit obligations is discounted to the present value, which performed by a qualified actuary using the projected unit credit method.

Remeasurements of the net defined benefit liability, actuarial gain or loss are recognised immediately in OCI. The Group determines the interest expense on the net defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period, taking into account any changes in the net defined benefit liability during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Group recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

Other long-term employee benefits

The Group's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Remeasurements are recognised in profit or loss in the period in which they arise.

Termination benefit plans

Termination benefits are expensed at the earlier of when the Group can no longer withdraw the offer of those benefits and when the Group recognizes costs for a restructuring. If benefits are not expected to be settled wholly within 12 months of the end of the reporting period, then they are discounted.

#### (o) Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognised as finance cost.

#### (p) Fair values measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the Group has access at that date. The fair value of a liability reflects its non-performance risk.

000

Notes to the financial statements For the year ended 31 December 2024

When measuring the fair value of an asset or a liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows:

- Level 1: quoted prices in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: inputs for the asset or liability that are based on unobservable input.

The Group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

If an asset or a liability measured at fair value has a bid price and an ask price, then the Group measures assets and asset positions at a bid price and liabilities and liability positions at an ask price.

The best evidence of the fair value of a financial instrument on initial recognition is normally the transaction price – i.e. the fair value of the consideration given or received. If the Group determines that the fair value on initial recognition differs from the transaction price, the financial instrument is initially measured at fair value adjusted for the difference between the fair value on initial recognition and the transaction price and the difference is recognised in profit or loss immediately. However, for the fair value categorised as level 3, such difference is deferred and will be recognised in profit or loss on an appropriate basis over the life of the instrument or until the fair value level is transferred or the transaction is closed out.

#### (q) Revenue

Revenue is recognised when a customer obtains control of the goods in an amount that reflects the consideration to which the Group expects to be entitled, excluding those amounts collected on behalf of third parties, value added tax and is after deduction of any trade discounts.

Sale of real estate

Sale of real estate development project is recognised when the construction works are completed and the ownership has been transferred to buyers.

#### (r) Income tax

Income tax expense for the year comprises current and deferred tax, which is recognised in profit or loss except to the extent that it relates to a business combination, or items recognised directly in equity or in other comprehensive income.

Current tax is recognised in respect of the taxable income or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the temporary differences: the initial recognition of goodwill; the initial recognition of assets or liabilities in a transaction that is not a business combination or at the time of the transaction (i) affects neither accounting nor taxable profit or loss and (ii) does not give rise to equal taxable and deductible temporary differences; and differences relating to investments in subsidiaries to the extent that it is probable that they will not reverse in the foreseeable future.

Notes to the financial statements

For the year ended 31 December 2024

The measurement of deferred tax reflects the tax consequences that would follow the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities, using tax rates enacted or substantively enacted at the reporting date. Current deferred tax assets and liabilities are offset in the separate financial statements.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that the related tax benefit will be realised.

#### (s) Earnings per share

Basic earnings per share (EPS) is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year.

#### 5 Acquisition of subsidiary

Acquisition of investment in TNLX Co., Ltd.

In July 2024, the Company purchased ordinary shares 4,200,000 shares in TNLX Co., Ltd. from Thanulux Public Company Limited, amounting to Baht 468.93 million. The Company had the ownership proportion as 70% and the control in TNLX Co., Ltd.

Taking control of TNLX Co., Ltd. will enable the Group receive the benefit from saving the production cost per unit and inventory management efficiency including enable to manage supporting division and had authority to manage the operation activity of TNLX Co., Ltd. efficiency to enhance the Group's existing to be more efficiency and align with the Company's operation activity.

During the period from acquisition date to 31 December 2024, TNLX Co., Ltd. contributed revenue of Baht 627.42 million and profit of Baht 20.06 million.

The following summaries the major classes of consideration transferred, and the recognized amounts of assets acquired and liabilities assumed at the acquisition date:

Identifiable assets acquired and liabilities assumed	Fair value
	(in thousand Baht)
Cash and cash equivalents	263,526
Current investment	130,000
Trade receivables	139,701
Other receivables	25,566
Inventories	310,867
Other current assets	7,515
Property, plant and equipment	77,063
Right-of-use assets	7,365
Other intangible assets	43,090
Deferred tax assets	36,055
Other non-current assets	15,407
Trade payables	(116,206)
Other payables	(83,831)

I.C.C. INTERNATIONAL PLC. 163

Notes to the financial statements For the year ended 31 December 2024

Identifiable assets acquired and liabilities assumed	Fair value
	(in thousand Baht)
Corporate income tax payables	(1,688)
Other current financial liabilities	(48)
Lease liabilities	(7,848)
Provisions for employee benefit	(128,347)
Other non-current liabilities	(5,887)
Total identifiable net assets	712,300
Less Non-controlling interest (30%)	(213,690)
Total identifiable net assets received	498,610
Total identifiable net assets received	498,610
Purchase consideration transferred	(468,930)
Gain on bargain purchase	29,680
Net cash acquired with the subsidiary	263,526
Cash paid	(468,930)
Net cash outflow	(205,404)

During the fourth quarter of 2024, the determining of the fair value by an independent appraiser was completed and the identifiable assets acquired and liabilities assumed completely recognised as fair value.

The Group is continuing its review of these matters during the measurement period. If new information obtained within one year from the acquisition date about facts and circumstances that existed at the acquisition date identifies adjustments to the above provisional fair values, or any additional assets or liabilities that existed at the acquisition date, then the acquisition accounting will be revised.

#### 6 Related parties

A related party is a person or entity that has direct or indirect control, or has significant influence over the financial and managerial decision-making of the Group; a person or entity that are under common control or under the same significant influence as the Group; or the Group has direct or indirect control or has significant influence over the financial and managerial decision-making of a person or entity.

Relationships with parent of the Group, ultimate parent of the Group, associates and subsidiaries are described in notes 10 and 11. Other related parties that the Group had significant transactions with during the year were as follows:

Name of entities	Country of incorporation/nationality	Ownership interest (%)	Nature of relationships
Key management personnel	Thai	-	Persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any director (whether executive or otherwise) of the Company.

Future salary growth	2.50 - 5.00	3.00 - 5.00	3.00 - 5.00	3.00 - 5.00		

Assumptions regarding future mortality have been based on published statistics and mortality tables.

At 31 December 2024, the weighted-average duration of the defined benefit obligation was 6.00 - 12.00 years. (2023: 6.00 - 11.11 years)

Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	Consolidated financial statements

#### Decrease in authorized share capital

At the Annual General Meeting of the Shareholders of the Company held on 22 April 2024, the shareholders passed their resolutions to decrease authorized share capital 209,366,270 ordinary shares at Baht 1 par value each, totalling to Baht 209,366,270 from authorized share capital 500,000,000 ordinary shares at Baht 1 par value each, totalling to Baht 500,000,000 to newly authorized share capital 290,633,730 ordinary shares at Baht 1 par value each, totalling to Baht 290,633,730. The Company registered the capital decrease with the Ministry of Commerce on 20 May 2024.

#### Increase in authorized share capital

At the Annual General Meeting of the Shareholders of the Company held on 22 April 2024, the shareholders passed their resolutions to increase authorized share capital 74,366,270 ordinary shares at Baht 1 par value each, totalling to Baht 74,366,270 from authorized share capital 290,633,730 ordinary shares at Baht 1 par value each, totalling to Baht 290,633,730 to newly authorized share capital 365,000,000 ordinary shares at Baht 1 par value each, totalling to Baht 365,000,000. The Company registered the capital increase with the Ministry of Commerce on 23 May 2024.

#### 18 Reserves

Reserves comprise:

#### Legal reserve

Section 116 of the Public Companies Act B.E. 2535 Section 116 requires that a public company shall allocate not less than 5% of its annual net profit, less any accumulated losses brought forward, to a reserve account ("legal reserve"), until this account reaches an amount not less than 10% of the registered authorised capital. The legal reserve is not available for dividend distribution.

Notes to the financial statements For the year ended 31 December 2024

#### General reserve

The Company distributed a general reserve equal to 10% of profit for the each year in order for the company has strength on general reserve base to be maintain stability and increase the Shareowner's wealth.

### 19 Segment information and disaggregation of revenue

Segment results that are reported to the Group's CEO (the chief operating decision maker) include items directly attributable to a segment as well as those that can be allocated on a reasonable basis.

Operating segment information is reported in a manner consistent with the internal reports that are regularly reviewed by the chief operating decision maker in order to make decisions about the allocation of resources to the segment and assess its performance.

The business operation involves 4 principal segments; Cosmetics toiletries & perfumeries, Women's apparel, Men's apparel and Household products. Segment performance is considered by using the measure operating profit in the financial statements. The Company has not report segment assets and segment liabilities due to the management believe that such information is the most relevant in evaluating the results of certain segments relative to other entities that operate within these industries.

As at 31 December 2024, the Company and its subsidiaries incurred a taxable loss which will expire 2025 - 2029 and have not been recognised as deferred tax assets of Baht 309 million. (31 December 2023: Baht 862.00 million and Baht 105.94 million, respectively).

### 22 Earnings per share

Basic earnings per share for the year ended 31 December 2024 and 2023 is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period and after adjusting the number of ordinary shares used to calculate earnings per share for the year ended 31 December 2024 in proportion to the change in the number of shares as a result of the distribution of the stock dividends of 74 million shares, following with the resolutions of the Annual General Meeting of the Shareholders of the Company held on 22 April 2024, as if the stock dividend had been issued at the beginning of the earliest period reported. For the purpose of comparing earnings per share, the Company has also adjusted the number of ordinary shares in issue for the year ended 31 December 2023.

Financial instruments measured at fair value level 2 and level 3

The Group determined Level 2 fair values for forward exchange contract. The fair value for forward exchange contract is determined using quoted forward exchange rates at the reporting date.

The Group determined Level 3 fair values for investment in non-listed equity instruments. The fair value for the investment is determined using a valuation technique that used significantly unobservable input such as discounted cash flows, dividend discount model, market comparison technique or latest reporting net assets adjusted by relevant factors (if any).

Sensitivity analysis

For the fair values of financial assets measured at fair value Level 3, reasonably possible changes at the reporting date to one of the significant unobservable inputs, holding other inputs constant, would have the following effects.

### (c) Financial risk management policies

Risk management framework

The Group's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The board of directors has established the risk management committee, which is responsible for developing and monitoring the Group's risk management policies. The committee reports regularly to the board of directors on its activities.

The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group audit committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Group audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

#### (c.1) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers.

#### (c.1.1) Trade receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate.

The risk management committee has established a credit policy under which each new customer is analysed individually for creditworthiness before the Group's commercial terms and conditions are offered. The Group's review sale limits are established for each customer and reviewed quarterly. Any sales exceeding those limits require approval from the risk management committee.

The Group limits its exposure to credit risk from trade accounts receivables by establishing a maximum payment period of 4 months. Outstanding trade receivables are regularly monitored by the Group. An impairment analysis is performed by the Group at each reporting date. The provision rates of expected credit loss are based on days past due for groupings of various customer segments with similar credit risks to reflect differences between economic conditions in the past, current conditions and the Group's view of economic conditions over the expected lives of the receivables.

Information relevant to trade accounts receivables and contract assets are disclosed in note 8.

### Notes to the financial statements

For the year ended 31 December 2024

#### (c.1.2) Investment in debt securities

The Group considers that all debt investments measured at amortised cost have low credit risk. Then the credit loss allowance assessed during the year was therefore limited to 12 months expected losses or 'low credit risk'. Marketable bonds are considered to be an investment grade credit rating published by external credit rating agencies. The credit risk of other instruments are considered to be low when the risk of default is low and the issuer has a strong capacity to meet its contractual cash flow obligations.

#### (c.1.3) Cash and cash equivalent and derivatives

The Group's exposure to credit risk arising from cash and cash equivalents and derivative assets is limited because the counterparties are reliable banks and financial institutions which the Group considers to have low credit risk.

#### (c.1.4) Guarantees

The Group's policy is to provide financial guarantees only for related parties' liabilities. At 31 December 2024, the Group has issued a guarantee to certain banks in respect of credit facilities granted to related parties (see note 6).

#### (c.2) Liquidity risk

The Group monitors its liquidity risk and maintains a level of cash and cash equivalents deemed adequate by management to finance the Group's operations and to mitigate the effects of fluctuations in cash flows.

The following table are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted and include contractual interest payments and exclude the impact of netting agreements.

	1,503,758	1,283,728	220,030	-	1,503,758	

The cash inflows/cash outflows disclosed in the above table represent the contractual undiscounted cash flows relating to derivative financial liabilities held for risk management purposes and which are not usually closed out before contractual maturity. The disclosure shows net cash flow amounts for derivatives that are net cash-settled and gross cash inflow and outflow amounts for derivatives that have simultaneous gross cash settlement.

#### (c.3) Market risk

The Group is exposed to the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk is as follows:

#### (c.3.1) Foreign currency risk

The Group is exposed to foreign currency risk relating to purchases and sales which are denominated in foreign currencies. The Group primarily utilizes forward exchange contracts with maturities of less than one year to hedge such liabilities denominated in foreign currencies. The forward exchange contracts entered into at the reporting date also relate to anticipated purchases, denominated in foreign currencies, for the subsequent period.

Exposure foreign currency	Consoli	idated	Separate

Net exposure	434	414	434	414

Notes to the financial statements For the year ended 31 December 2024

#### (c.3.2) Interest rate risk

Interest rate risk is the risk that future movements in market interest rates will affect the results of the Group's operations and its cash flows because loan interest rates are mainly fixed. So the Group has low interest rate risk. The sensitivity impact to the increase or decrease in interest expenses from borrowings, as a result of changes in interest rates is immaterial on financial statements of the Group.

### 25 Capital management

The Board of Directors' policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. The Board regularly monitors the return on capital, by evaluating result from operating activities divided by total shareholders' equity, excluding non-controlling interests and also monitors the level of dividends to ordinary shareholders.

### 26 Commitments with non-related parties
